Tips from CS Academic Advisor August 22, 2012

[RECOMMENDED SELECTION OF COURSES FOR YEAR 1]

For students who plan to join the BEng(CompSc) programme:

First Semester

MATH1851 / MATH1853 Calculus and ordinary differential equations / Linear algebra, probability and statistics

PHYS1050 Physics for engineering students

CAES1000 Core University English

Two University Common Core courses

Second Semester

MATH1851 / MATH1853 Calculus and ordinary differential equations / Linear algebra, probability and statistics

ENGG1111 Computer programming and applications
Subclass **A** or **B** or **C**

ENGG1202 Introduction to computer science

One General Engineering course from this list:

ENGG1201, ENGG1203, ENGG1204, ENGG1205, & ENGG1206

One University Common Core course

ACADEMIC ADVISING
