# - Students with level 4 in HKDSE English Language are required to take 6 additional credits in Core University English to complete their degree studies.

&& UG5(e) requirement – Successful completion of any other non-credit bearing course(s) for fostering students' whole-person development

\*\* Double-counting of the 4 FBE Core Courses (ACCT1101, ECON1210, FINA1310, & STAT1603) is only confined to the combination of "major-major". Students are advised to seek endorsement from FBE on the replacement courses (i.e. 24 credits of free electives in lieu of ACCT1101, ECON1210, FINA1310 & STAT course), subject to the Engineering Faculty's approval.

@ All courses offered by FBE have quota restriction. Students' declaration of a second major in Entrepreneurship Design and Innovation (EDI) will NOT guarantee them a place in the relevant courses for fulfilment of the major requirements. Candidates who wish to pursue a second major in EDI are required to undergo a selection process. Candidates are required to submit an application form within one week after add/drop period of the second semester of **their first year of study**. Shortlisted candidates will be invited by email to a group interview.

**Please check with FBE to see whether you can apply to this major in the 2<sup>nd</sup> year of study.**
